Kitchen & Bath Factory is a family owned business founded in 1980 by Bob and Stephanie Kay. Their attention to detail and customer service has made Kitchen & Bath Factory the premier kitchen remodeling firm in Northern Virginia and Washington DC. These same principles have been handed down to lead designer, David Doughton. David's ten years of experience with Kitchen & Bath Factory, has given him a sound foundation to provide homeowners with beautifully designed kitchens at competitive prices.

David applies his design skills in kitchens of all sizes, but has an acute eye for making the most out of small kitchen spaces. Kitchen & Bath Factory's approach is to provide clients with design ideas, while keeping budget and aesthetic in mind. Clients are provided a detailed schedule for their project from start to finish. Contact Kitchen & Bath Factory today to schedule an appointment to discuss your dream kitchen.
